Customer Problem Statement Template:

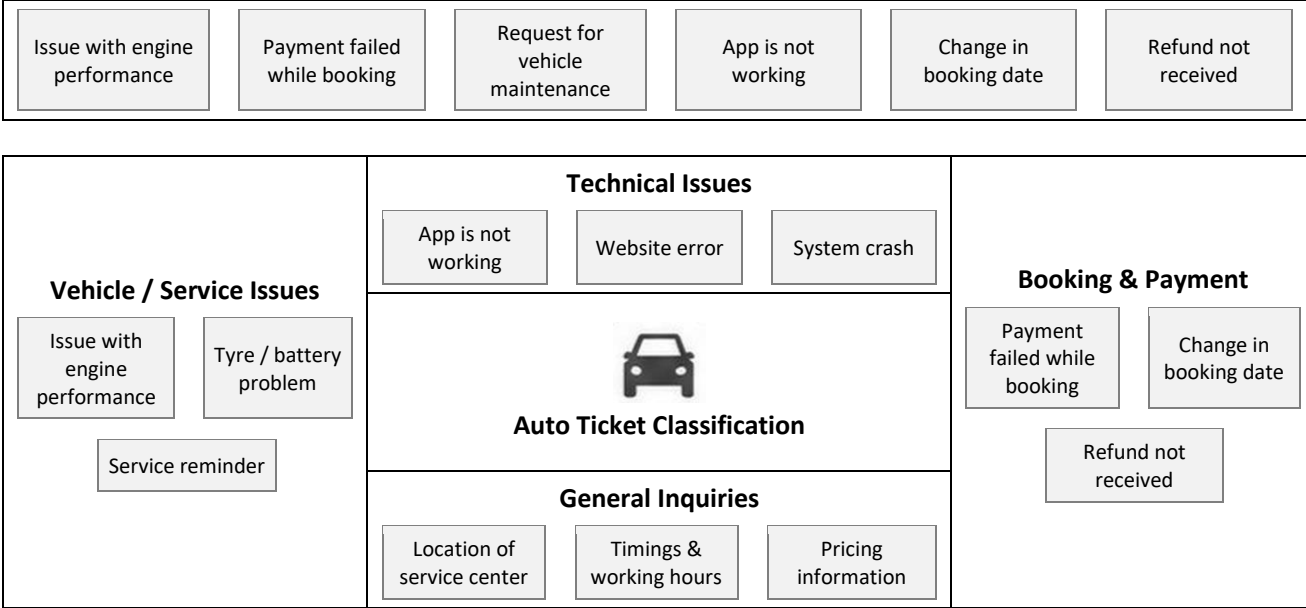

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive their issue and need for an auto ticket classification system.

Hear • Customer feedback • Team discussions • System notifications	Think & Feel • Tickets are delayed often • Wants quick and accurate classification • Feels overwhelmed with high volume	See • Unclassified tickets • Repetitive issues • Manual handling process
		
	Say & Do • "I need my ticket resolved quickly." • Submits tickets through the portal • Checks status frequently	
Pain • Delay in ticket resolution • Misclassification of tickets • Lack of transparency	Gain • Faster resolution • Accurate classification • Better customer satisfaction

Example: Auto Ticket Classification

Classification Table (Sample)

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 – Engine performance issue	Car owner	Get the issue diagnosed and repaired	The ticket is classified under the wrong category	It delays the service process	Frustrated and inconvenienced
PS-2 – Payment failure	Customer	Complete the payment and book the service	The system shows an error and doesn't process the payment	There is no proper classification in the system	Anxious and worried about losing the booking
PS-3 – App not working	User	Use the app to raise a ticket	The issue is not detected properly	The flow doesn't route the ticket to the right team	Frustrated and confused
PS-4 – Change in booking date	Customer	Reschedule the booking	It is categorized as a new booking	The system lacks intent recognition	Inconvenienced and time wasted
